TARASAFE STANDARD

As a true healthcare, multi-specialist and with over seventy years' healthcare experience, Gerflor has grown and developed to become an expert in the care home field by creating, manufacturing and marketing innovative, decorative, durable, hygienic and environmentally-responsible flooring

You can't escape the fact that we are staying healthier longer. No bad thing. However, approximately 416,000 people now live in nursing homes. This is 4% of the population aged 65 years and over, rising to 16% of those aged 85 or more. The care market is literally booming and set to develop even further in the coming years. Ensuring that our elderly have a decent level of comfort is close to the heart of international flooring specialist Gerflor.

The Orchard Grove Care Home is a care centre for the elderly, located in Prospecthill Circus in the Toryglen area of Glasgow. This 120-bed residential unit was named by the residents and has eight units. Each unit has been named after a fruit to reflect the name of the home. There is also a day centre based at Orchard Grove which has its own entrance and reception to welcome people using this service.

The facility required some 2000m² of flooring that could deliver the perfect solution for their halls, en-suites, in-house hairdressers, staff changing facilities, cleaner's cupboards and kitchen areas. Nearly four years on and in 'situ', the overall specification has been delivering fantastic results all round.
