

DESCRIPTION

Description		PVC welding rod for hot welding to ensure a watertight and conductive connection between 2 tiles of GTI EL
Installation		Hot welding - for a better weld use an adapted nozzle
Weight	g/lm	16 +/- 1
Shore		80 +/- 5 Sh A.
Diameter	mm	4,05 +/- 0,10
Thickness of the conductive sheath	mm	0,10 +/-0,03
Packaging	unit/box	1 coil (100 (+4/-0) lm)
Colors available		Consult Gerflor.com
Product Code(s)		2722

PERFORMANCES

Strength at break- EN ISO 527R	MPa	8
Elongation at break- EN ISO 527R	%	250 + 50
Maximum working temperature	°C	200
Volumetric resistivity	Ohm.cm	< 10E3
Average resistivity at 1 cm	Kohms	Nominal 50
