

DESCRIPTION

Description	Floor protection to preserve the floors laid down until the site is delivered. The Gerflor floor protective layer has a waterproof, scratch-resistant wear layer, providing effective protection against slipp and other external stresses. Its slightly sticky backing ensures a good hold on the floor for a safe use and allows to remove it and to reposition it very easily	
Limitation	<ul style="list-style-type: none"> - Do not use on porous floors, ceramics tiles or wet surfaces. - Do not expose to direct sunlight - Do not use solvents - Do not apply a permanent pressure of more than 100 kg/m² for more than 24 hours. 	
Installation	<ul style="list-style-type: none"> - Clean the surface to be covered from dust to ensure better adhesion - Apply the product in 10 cm (4") overlapping strips 	
Composition		<p style="text-align: center;">Wear layer: waterproof polyethylene film Backing: non-woven PET, resined with an acrylic binder</p>
Width	mm	1000 +/-1
Thickness	mm	2.5
Weigth	g/m ²	120
Color		White
Packaging		1 roll of 50 lm (50m ²)
Article code		058X0001
STORAGE CONDITIONS		
Service temperature	°C	From 10 to 30°C
Storage temperature	°C	From 5 to 40°C
