

Manual washing equipment
Disposable microfibre mop or gauze

	Equipment used	Cleaning products	Cleaning methods
First use	 Flat mop + disposable microfibre mop	Alkaline detergent	<ul style="list-style-type: none"> • Damp sweeping • Manual washing with an alkaline detergent <ul style="list-style-type: none"> • Rinsing with flat mop + water • Disinfection (if disinfection required)
Daily cleaning	 Flat mop + disposable microfibre mop	Neutral detergent or disinfectant detergent (amine-free)	<ul style="list-style-type: none"> • Damp sweeping • Manual washing with a neutral detergent or disinfectant detergent (if disinfection required) <ul style="list-style-type: none"> or • Steam cleaning
Periodic cleaning	 Flat mop + disposable microfibre mop	Alkaline detergent or disinfectant detergent (amine-free)	<ul style="list-style-type: none"> • Damp sweeping • Manual washing with an alkaline detergent <ul style="list-style-type: none"> • Rinsing with flat mop + water • Manual washing with a disinfectant detergent (if disinfection required) <ul style="list-style-type: none"> or • Steam cleaning + specific detergent

This maintenance protocol should be adapted according to the level of traffic and the location of the area.

Disinfected surfaces:

Some disinfecting detergents contain amines that can cause yellowing of surfaces (walls, toilet bowls, washbasins, seals, etc.) if they are not used properly.

We recommend the use of amine-free disinfectant detergent.

When using amine-free disinfectant detergent, it is necessary to follow the manufacturer's recommendations :

- Observe the recommended dilution.
- When spraying, do not allow to dry without wiping/rinsing.
- Alternate between alkaline detergent and disinfectant detergent to remove residues on surfaces.

For **manual maintenance** and in order to offer you the best results in terms of hygiene and aesthetics, **Gerflor recommends the use of neutral and alkaline detergents with a high wetting power** (perfect spreading and cleaning of the entire floor surface).

Here is a non-exhaustive list of products recommended by the main manufacturers:

KIEHL : Torvan*, concentrated Torvan**, Desinet***

TANA / WERNER : AROMA fresh*, NOWA FLA 710S**, Apesin clean bacto***

ANIOS : Deterg'anios*, Aniossurf***

ROCHEX : Lumisol*, Roctonic**, Desintex BGF***

BUZIL : G481 Blitz Citro, HC 43 Maradin, D443 Budenat® Intense***

Dr. SCHUTZ : PU Cleaner dilution 1/200*, Clean & Strip**, Disinfectant cleaner***

DIVERSEY / SEALED AIR: Jontec 300 Pur Eco*, Jontec Stride degreissant**, Oxivir Excel***

*Neutral / **Alkaline / ***Disinfectant detergent
